Response
Fund

Life-saving Criteria in the Prioritisation Process

Life-saving criteria and contextual factors

Prioritise through analysis/weight of:

Timing/
trigger

Intended
positive
changes/
impact

Implementation
capacity/access

Coherence
within the
submission

Target
population/
geographical
priorities

Sending
out
advocacy
message

Prioritisation

Based on
needs
assessments

Essential for
the immediate
humanitarian
response

Life-saving as
defined by the
CERF criteria

Can be fully
completed –
funds
expended and
activities
carried out --
within the
implementation
period

GREY ZONE
