# Case Study: **Central African Republic**

**Is the CERF submission prioritised for  
maximum life-saving impact?**

**Questions 1-10: 40minutes**

## CERF Case Study Questions

1. What is the **trigger** for this CERF request?
2. **Who** is targeted, how many people, **where** and **with what**?
3. To what extent are the selected **geographical locations** logical and streamlined?
4. What are the overall strategic objectives of this request? Please describe in a **SMART objective** format (who is targeted, where, with what, for what purpose?)
5. How are the different activities planned in this request **interlinked**? Are they implementable within six months?
6. What are the **operational constraints**? Access?
7. In what way is this request **complementing** existing or expected inputs from other sources?
8. What is the **advocacy message** that can be sent through this CERF allocation?
9. What in this request is **CERF's niche**? Is it a strategic use of the CERF?
10. How did humanitarian partners jointly prioritize the CERF request? What is missing?
