

GLOBAL OVERVIEW TABLES

Global overview tables are another way to find a wealth of FTS information in just a couple of clicks.

The screenshot shows the FTS website interface. The navigation menu includes HOME, APPEAL FUNDING, COUNTRIES, GLOBAL OVERVIEW (highlighted with a red box), and CUSTOM SEARCH. The main content area is titled "Funding Status of Latest Appeals" and displays a list of humanitarian appeals with their funding status. A sidebar menu on the left lists various features, with "Global Overview Tables" highlighted by a red box.

1. Global Humanitarian Funding

The tables under the Global Humanitarian Funding Section provide information about total humanitarian funding in a particular year. The tables are organized by donor, by sector and by appealing agency.

2. Consolidated Appeals Process

These tables give you funding information on the Consolidated Appeals Process, which includes Consolidated and Flash Appeals. They are organized by donor, by appeal, by appealing organization and by sector. They are a subset of the Global Humanitarian Funding tables.

3. Natural Disasters

These tables present information about all natural disasters to which international humanitarian funding has been recorded. (Note, there are many natural disasters to which no funding has been reported to FTS).

4. Central Emergency Response Fund (CERF)

The CERF tables provide information about all contributions to the CERF, an overview of how much the CERF has allocated to each recipient organization, and the total amount allocated per emergency in a given year. The latter two tables divide Rapid Response (RR) grants and Under-Funded Emergencies (UFE) grants.

Global overview tables cover 2000 - 2011-- see year tabs at the top of the page -- except for the CERF tables which begin in 2006.
