The Yemen Humanitarian Fund launched its first Standard Allocation on 12 August 2018, after the finalization of the fast-tracked Yemen Humanitarian Response Plan (YHRP). The objectives of the Allocation were based on the priorities of the YHRP and were to: bridge gaps in the first-line response of Cluster partners, increase humanitarian service delivery in hard-to-reach areas across the country, and strengthen cooperation with national front-line NGOs through a dedicated allocation window of US$5.2 million. A total of US$86.9 million was allocated to 75 projects targeting 3 million people in need in 19 Governorates across seven Clusters and seven Multi-Cluster projects. In recognition of their access and capacity advantages, national NGOs received 50 per cent of the total funding allocated.

---

1. Over-achievement due to increase in geographical coverage compared to original target which was based on partner capacity at the time.
2. Over-achievement relates to the awareness-raising component of the indicator. SA1 also supported legal, medical and psychological assistance for which gaps remain.
3. Over-achievement is due to the fact that the target was set before the Rapid Response Mechanism was included under the Protection Cluster, which significantly increased the actual target.
