There are an estimated 941,000 people (1.7 percent of the total population) in need of humanitarian assistance in Myanmar.

For five years, the Central Emergency Response Fund (CERF) and the Myanmar Humanitarian Fund (MHF), OCHA-managed pooled funds, have helped partners to deliver $74 million of critical assistance for people with humanitarian needs, which includes vulnerability due to protracted conflict, climatic shocks, limited access to basic services, denial of rights and insecurity.

In 2018, an Integrated Allocation Strategy including the CERF and the MHF was used to respond to floods in South-Eastern Myanmar. It demonstrated improved prioritization and efficiency with enhanced transparency, and promoted inclusiveness, improved coordination including joint monitoring, and minimized duplication and overlap.
