The Second 2021 Standard Allocation (SA2) of the Yemen Humanitarian Fund (YHF) was launched by the Humanitarian Coordinator on 9 November to support some of the most vulnerable people in prioritized areas across Yemen. The allocation came at a time when the situation in Yemen continues to deteriorate amid a funding crisis that is impeding scale-up of life-saving aid to avert the risk of famine.

The SA2 supports three strategic priorities, namely (i) to improve dignified living conditions for the most vulnerable IDPs in under-served sites as well as in new sites lacking services in prioritized sub-districts; (ii) support durable interventions through innovative programming and localized solutions in selected districts in Amran, Taiz, Al Hodeida, and Al Jawf Governorates; and (iii) support affected communities’ movements and access to services through mine action clearance and RRM.

A total of $44.5 million was allocated to 35 partners implementing a total of 38 projects across nine Clusters, including RRM, as well as multi-cluster projects. Promoting an integrated approach to programming, 26 out of the 38 projects funded under the SA2 include multi-sector interventions. Funding will target more than 1.5 million people in need of assistance in 39 districts across 10 governorates.

FUNDING AND BENEFICIARIES BY GOVERNORATE AND DISTRICT

ZOOM IN ON MARIB

In view of recent displacement and increasing humanitarian needs due to conflict escalation in and around Marib, approximately $11.7 million, or 26.3 per cent of total SA2 funding, was allocated to the governorate targeting more than 475,000 people in need of assistance. Funding will support partners’ multi-sector interventions aimed to improve dignified living conditions for the most vulnerable IDPs in under-served IDP sites and in new sites lacking services as well as RRM assistance.
