

The first Standard Allocation for the Yemen Humanitarian Fund 2020 was launched on 19 November 2020 with the objective to provide immediate funding to assist people in acute humanitarian needs with a view to mitigate the risks of famine and negative consequences of COVID-19 in Yemen. The allocation focused on two priorities a) activities covering high priority gaps for people in acute needs in the hardest of the hard to reach areas for four districts of Ta'izz; b) activities covering gaps for people in acute needs in the ongoing emergency response, including critically underfunded protection programmes; IDP response and pre-positioning critical life-saving emergency items. A total of \$75.3 million was allocated to 34 partners implementing 58 projects across 10 clusters, including 20 multi-cluster projects, targeting 3,266,358 beneficiaries in 137 districts across 20 governorates.

FOCUS ON RESPONSE IN TA'IZ GOVERNORATE

In the prioritized four districts in Al Mukha, As Silw, Hayfan, and Maqbanah in Taiz governorate, over 1.1m beneficiaries (number includes people receiving services from more than one cluster) will receive life-saving assistance from YHF partners, amounting to almost \$13m. This includes the distribution of food vouchers, NFI basic kits for IDPs in hosting sites, rehabilitation of schools and WASH facilities as well as the distribution of the school's bags to students in targeted schools, or the rehabilitation of water supply facilities and provision of maintenance kits to provide water to people in need from the host and IDP communities.
