Yemen Humanitarian Fund (YHF) and Central Emergency Response Fund (CERF) jointly provided US$ 164 million for life-saving assistance in Yemen in 2020. YHF and CERF funding was jointly prioritized by in-country humanitarian actors and targeted people most in need in some of the hardest to reach areas. This funding represented 8 per cent of the total funding received against 2020 Yemen Humanitarian Response Plan (HRP) and Yemen COVID-19 Response Plan.

Out of the total $164 million allocated, $90.2 million (55 per cent) went to NGOs and Red Crescent Societies. This included $67.4 million in direct funding from YHF and CERF and $22.8 million in subgranted funding from direct recipients to their implementing partners. YHF and CERF funding was allocated in a complementary manner and supplemented funding from other sources. For instance, the funding from YHF second Reserve Allocation enabled the provision of allowances for health workers and key COVID19 - response activities, while CERF Underfunded Allocation provided critical funding to underfunded health projects. As a result, the two funds provided a lifeline for the critically overstretched health response in Yemen in 2020.

**ALLOCATION THROUGH CASH TRANSFER PROGRAMMING**

- **$163.6 million** CERF and YHF allocations to Yemen response in 2020
- **$47.7 million** Allocated through cash transfer programming
