On June 5th 2020 the LHF launched its First Standard Allocation 2020 to support humanitarian priorities identified in the COVID-19 Lebanon Emergency Appeal (LEA). The Allocation funded best-placed partners to provide targeted support to the critical life-saving needs of most vulnerable beneficiaries across all cohorts, mitigating against their increased vulnerability as a result of the pandemic and socio-economic situation.

$6.75 million total allocations
15 partners supported through allocations
15 projects approved for funding
73,000 people targeted by humanitarian assistance

Targeted beneficiaries were based on vulnerability regardless of nationality or status

ALLOCATIONS BY SECTOR
- Health: $1.8M
- Protection: $1.7M
- Food Security: $1.5M
- WASH: $1.6M
- Coord: $0.12M

TARGETED BENEFICIARIES BY SECTOR
- Health: 30,195
- Protection: 5,455
- Food Security: 14,220
- WASH: 12,341
- Coord: 11,000

FIRST STANDARD ALLOCATION MAP 2020

Creation date: 14 October 2020  Sources: UN and humanitarian partners, OCHA Grant Management System and Business Intelligence Site. Feedback: ochalebanon@un.org  www.unocha.org  www.reliefweb.int  www.humanitarianresponse.info  https://www.unocha.org/lebanon/about-lhf
Following the 4th August Beirut Port explosions, the Humanitarian Coordinator immediately released funds under an LHF Emergency Reserve Allocation. Over $8 million was allocated to support national and international NGO partners to implement life-saving projects in the health, food security, WASH and protection sectors for those most affected by the explosions. All people impacted by the explosions, regardless of nationality or status, were targeted under the allocation.

Considering the immediate critical needs in the aftermath of the explosions, projects supported the continuation of primary health services, the provision of food parcels complemented with disinfection kits to stop the spread of COVID-19, and the scaling up of emergency cash assistance for those most vulnerable individuals impacted by the blast. The allocation also included a component aiming at strengthening the Prevention of Sexual Abuse and Exploitation (PSEA) in the humanitarian response through additional trainings for frontline workers as well as support to setting up a collective community feedback mechanism.

The LHF sought as far as possible to build on ongoing projects under the LHF’s First Standard Allocation 2020 to ensure as rapid and effective a response as possible.

AT A GLANCE

- **$8.1 million** total allocations
- **8 partners** supported through allocations
- **8 projects** approved for funding
- **88,000** people targeted by humanitarian assistance
  Targeted beneficiaries were based on vulnerability regardless of nationality or status

CENTRAL EMERGENCY RESPONSE FUND

CERF launched a complementary allocation of **$6 million** to provide critical life-saving support through public and private hospitals, immediate emergency repair of accommodation for those most vulnerable in areas close to Beirut port, and ensuring critical ongoing functionality of the port in Beirut.
